

Concentration - General Information

A Concentration requires a minimum of eighteen (18) units without double-counting courses used to satisfy the GE pattern.
 Note: that courses taken for "credit" instead of a grade (where there was a option) CANNOT be used toward a Concentration.
 A minimum of 18 (eighteen) semester units must be taken from an approved Concentration by either option A or B below:
 A. A minimum of 18 (eighteen) semester units from courses listed in one discipline.
 B. A minimum of 18 (eighteen) semester units from courses in two or more related disciplines in the same Concentration.
 At least 9 (nine) units must come from one discipline and at least 3 (three) units must come from the other related disciplines.
 Note: if units are prescribed within a specific discipline, the prescribed disbursement of the coursework must be followed if it is the only discipline used.

Example of Terms:	AGRICULTURE <u>Agriculture Business</u> AGBUS 10 12 13 <u>Agriculture Engineering</u> AGEGR 21 30A 30B	AGRICULTURE is the Concentration <u>Agriculture Business</u> and <u>Agriculture Engineering</u> are each specific disciplines and both are related disciplines since they are all under the same Concentration (Agriculture).
