Sexual Harassment Policy

It is the policy of the San Joaquin Delta Community College District to provide, for all students and employees, an educational environment and workplace free from sexual harassment. Therefore, the District expressly forbids sexual harassment of its students and employees by faculty, managers, supervisors, other students or members of the general public. Sexual harassment is in violation of state and federal statutes and will not be tolerated. Where evidence of harassment is found, appropriate personnel or student disciplinary action shall be taken, which may include a letter of warning/reprimand, suspension (of a faculty, non-faculty, employee or student), expulsion (of a student), or termination of employment, in accordance with the California Education Code.

Definition of Sexual Harassment

- A. Sexual harassment means unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature made by someone from or in the work or educational setting, under any of the following conditions:
 - 1) Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, academic status, or progress.
 - 2) Submission to, or rejection of, the conduct by the individual is used as the basis of employment or an academic decision affecting the individual.
 - 3) The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment.
 - 4) Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution
- B. For the purpose of further clarification, sexual harassment includes many forms of offensive behavior and includes gender-based harassment of a person of the same sex as the harasser. The following is a partial list:

- 1) Making unsolicited written, verbal, or physical contact with sexual overtones. Some examples are: making or using derogatory comments, epithets, slurs and jokes of a sexual nature; verbal sexual advances or propositions; verbal abuse of a sexual nature, graphic verbal commentaries about an individual's body, sexually degrading words used to describe an individual, suggestive or obscene letters, notes, or invitations; leering, making sexual gestures, displaying of sexually suggestive objects or pictures, cartoons or posters; touching, assault, impeding or blocking movements.
- 2) Continuing to express sexual interest after being informed that the interest is unwelcome. (Reciprocal attraction is not considered sexual harassment.)
- 3) Within the work environment, engaging in explicit or implicit coercive sexual behavior which controls, influences, or affects the career, salary and/or work environment or any other term or condition of employment; within the educational environment, engaging in explicit or implicit coercive sexual behavior which controls, influences, or affects the educational opportunities, grades and/or learning environment of the student.
- 4) Making reprisals, threats of reprisals, or implied threats of reprisal following a negative response to a sexual advance. For example, within the work environment, either suggesting or actually withholding support for an appointment, promotion, or change of assignment; suggesting a poor performance report will be prepared, or suggesting probation will be failed. Within the educational environment, either suggesting or actually withholding grades earned or deserved; or suggesting a scholarship recommendation or college application will be denied.
- 5) Offering favors or educational or employment benefits, such as grades or promotions, favorable performance evaluations, favorable assignments, favorable duties or shifts, recommendations, reclassifications, etc., in exchange for sexual favors.

Complaint Procedures

Any individual who believes that he or she has been sexually harassed and wishes to file a complaint or has questions about this policy should contact the Director of Human Resources/Affirmative Action at 954-5056. Every effort will be made to ensure that confidentiality is maintained and that due process is followed with respect to both parties. If evidence indicates that a complainant intentionally made false allegations, or made them maliciously, or that vexations or other wise unwarranted use of the complaint procedures took place, the District shall take appropriate disciplinary action. Procedures for filing an informal or formal complaint of sexual harassment are described in Procedure 1411 of the San Joaquin Delta Community College District Board of Trustees Policies and Procedures Manual. Copies of this procedure, any necessary forms, and the policy may be obtained from the Student Advocate or the Human Resources/Affirmative Action Office at San Joaquin Delta College.

Student Right To Know Report

Student Right to Know is a federal-mandate for colleges to publicly disclose graduation and transfer rates. These rates track first-time freshmen in a Fall cohort who are self-identified as being degree, certificate, or transfer-seeking. Students must be enrolled full-time in for-credit, degree-applicable courses. The cohort is, on average, a very small portion of the entire student population. Student outcomes (completion, transfer) are tracked over a three-year period. **Please note these rates are by no means an all-encompassing measure of the college's success.**

Fall 1996 Student Right to Know Cohort Report:

- Total student enrollment Fall 1996 = 18,470
- Total first-time freshman Fall 1996 = 4,521
- Total students in Fall 1996 Student Right to Know Cohort* = 895
- Percent of students in Fall 1996 Student Right to Know Cohort completing degree or certificate within 3 years (including students who transferred after receiving a degree or certificate = 27.3%
- Percent of students in Fall 1996 Student Right to Know Cohort transferring within 3 years without completing a degree or certificate = 18.6%

Additional Pertinent Data:

- 1996-97 Degrees Awarded = 949
- 1996-97 Certificates Awarded = 446
- 1996-97 Transfers to University of California = 97
- 1996-97 Transfers to California State University = 812

* *The cohort includes only first-time freshmen who were enrolled full-time in the Fall 1996 semester and who declared an intent to complete a degree or certificate and/or an intent to transfer. The cohort does not include students who enrolled part-time or those not declaring degree, certificate, or transfer as a goal.*

Campus Police Services

Police Cottage (209) 954-5000

San Joaquin Delta College provides law enforcement services through the Campus Police Department twenty-four hours a day, seven days a week. Campus Police enforce federal, state, and local laws, including criminal laws and vehicle code violations as well as handling the investigation of all criminal and traffic cases that occur on the campus. To facilitate the reporting of crimes or calling for assistance, a series of direct-dial telephones are located on every floor in every center, along the pathways and at the entrances to the parking lots. These phones have been placed in blue boxes for easy identification. This system provides direct and immediate contact with personnel of the Campus Police Department.

San Joaquin Delta Community College Police Officers are vested with full law enforcement powers and responsibilities, identical to the local police or sheriff. Campus Police Officers are certified by and meet the selection of training requirements set forth by the Commission on Peace Officers Standards and Training for the State of California Penal Code Section 13510(a).

Crime Prevention & Crime Reporting

One of the essential ingredients of any successful crime prevention program is an informed public. It is the intent of San Joaquin Delta College to inform students and staff, in a timely manner, of any criminal activity or security problems which may pose a reasonable threat to their physical safety. Such information will normally be distributed to students, faculty and staff through several campus publications. The Impact and the Mustang Bulletin are two student publications. Staff are informed through The Staff Notes newsletter, in-house memos or bulletins and electronic mail.

Another critical element of a campus safety program is education. Campus Police, the Student Activities Office, and the Counseling Department sponsor programs on various topics.

Finally, all effective crime prevention programs include some measure of people watching out for one another. All staff and students are asked to be **security conscious** and **involved**.

Lost and Found

Several hundred items of found property are turned in each year, most of which are never claimed by the rightful owners. One reason is that the property cannot be traced back to the owner. The other reason is that persons who lose property do not always check with the Campus Police to learn if their property has been found. Property that is marked with a name, phone number, or driver's license can be returned to the owner if found and turned in to Campus Police. Owners of property with no identification should check with the Campus Police in case it has been found.

Lockouts

Vehicle owners who are locked out of their vehicles may request assistance from Campus Police to gain entry into the locked vehicle.

Victims of Crime

Students who become the victim of a crime or witness a crime being committed should contact the Campus Police as soon as possible. Time is essential when a crime has been committed. The quicker the police department is notified, the quicker the response. Persons who believe that a crime *may be* occurring, or are suspicious that something is wrong, should contact the Campus Police. The police would rather respond to an innocent situation than not be notified when an actual crime has been committed. Always be on the safe side and call.

Fire Alarms

If a fire alarm sounds in any classroom or building on campus, exit the structure using the nearest stairwell and exit doors. **DO NOT USE ELEVATORS.** Persons between buildings should immediately walk to an open area, such as one of the parking lots. When exiting any location, always be alert for emergency vehicles which may be responding to the area.
