Disabled student services

Elevator key Agreement

Elevator keys are issued to students who can provide medical documentation of a physical disability which does not allow them to climb stairs. Students who can provide such documentation will issued a key for the semester in which they are enrolled. Your key must be returned or your application renewed at the end of each semester. Keys are very expensive to produce. Your failure to return your key by the date indicated on your application may result in the college placing a freeze on your transcripts.

I have read the above and understand my obligations to:

1. Provide medical documentation verifying my need for an elevator key.
2. Return my key/renew at the end of each semester.
