

Note on Collection of Remote Access Statistics:

After the library implemented EZ Proxy for remote access authentication, vendors could no longer distinguish between on and off campus usage. To the vendor, all access looks as if it comes from the main campus. Therefore, most of the statistics are for BOTH on and off campus usage.

**Glossary
Service**

A branded group of online information products from one or more vendors that can be subscribed to/licensed and searched as a complete collection or at a lower level.

Sessions (Sessns)

Cycle of user activities that starts when a user connects to a database and ends by connecting to another database or leaving the service through a logout or timeout due to user inactivity.

Fulltext (FT)

Sum of only full text records examined downloaded or otherwise supplied to user to the extent these are recordable and controlled by the Gale server rather than the browser. Separate reporting of full text usage by database began in June 2003.

Retrievals (Rtrvl's)

Sum of all full text abstract and extended citation records examined downloaded or otherwise supplied to user to the extent these are recordable and controlled by the Gale server rather than the

browser.

Searches (Srches)

A specific intellectual query submitted through a search form to the database.

Turnaways (Trmwy)

A turnaway (rejected session) is defined as an unsuccessful log-in to an electronic service by exceeding the simultaneous user limit.

Internal Usage/Remote Usage

Gale reports internal and remote access statistics separately on usage summary reports.
