Title: Is organic food really more nutritious?

Source: *Food Chemistry* (vol. 4, no. 1, pp. 25-7) (1997) (1911) (411 issues)

Document Type: Newspaper

Bookmark: [Bookmark this Database](#)

Library Link:

Full Text: COPYRIGHT 2007 Tufts University Health & Nutrition Letter

Voilà!

IS ALL TRYING TO DECIDE what you should eat but the only basis for organic foods? Though the 2006 conference, with scientific studies and anecdotal evidence on both sides of the fence, a new paper by the BPAF Nutrition Foundation (BNF) has just added a "twist."

EMPHASIZING its conclusions in its Nutrition Update, the BNF said that the overall body of science does not support the view that organic food is more nutritious than conventionally grown food. The BNF is an industry- and government-funded nonprofit focused on nutrition education.

Author Carrie Whelan, MEd, BSN, a nutrition advisor with the BNF, notes, "There appears to be a proliferation among many consumers of an organic food and more nutrients and disease-preventive than conventionally produced products. However, in data there are mixed data that support this view."

In comparing data on organically and conventionally produced foods, the BNF found that overall differences in the products' nutrient profiles, including vitamins, minerals and phytochemicals, are minimal. Organic products, for instance, were found to have higher levels of vitamin C in corn, but lower levels of vitamin C in grapes and blueberries. The BNF, however, did not find any differences in the levels of organically produced vegetables such as carrots, leafy greens, and spinach and no differences in the organics' content of fiber and phytochemicals.

Since the BNF paper was published, a separate study in *The Journal of Agriculture and Food Chemistry* found

**Online Databases:
Off-Campus Access**

14

Happy Practice 😊

1. Locate *Expanded Academic ASAP* from the library's home page
2. Conduct a subject search on **Global Warming**
3. Limit your search to subdivision or within the search results
4. E-mail an article to yourself

15

Congratulations!

16

Welcome to Goleman Library: An Orientation

English 70
27 November 2006

Pedro Reynoso
librarian

1

To Do List:

- Virtual Tour
 - Overview of Information Resources available from library's homepage (on/off campus)
- Physical Tour
 - Introduction to library and information services available here at the library

2

Library's Information Tools:

- Search Course Reserves
- Renew your Books
- Suggest a NEW title for purchase
- Go-Cat (online catalog)
- Electronic databases
- Library Courses
- Library Workshops

3

Search Course Reserves

- Search by:
 - Instructor's Name (drop-down menus)
 - Course Name & Number
 - When in doubt, use Dept. Code List
- Give it a try!
 - Does your instructor have any items on reserve?

4

Renew Library Materials Online

- If off campus, provide:
 - Library Card Number
 - Library Pin Number

5

Not on the shelves? Tell us

- Fill out electronic form:

6

Go-Cat: Online Catalog

- Basics
 - What we own?
 - Where items are located?
 - Is item available for check-out?
- Search the library's *tangible* materials
 - Books
 - Journals, Magazines, Newspapers
 - Audio-visual materials
 - Textbooks & Reserved Materials [RES]

7

TIPS when searching Go-Cat:

- NOT case sensitive--*upper/lower case*
- Use descriptive keywords
- If subject is too broad (or too many hits), ADD LIMITS
 - material format (book, video, audio)
 - location (reserve, reference, skills express)
 - date (1990-199)
 - language (Spanish)

8

Searching Library Databases

- Advantages
 - Accessible on/off campus
 - Increasingly Fulltext
 - Updated frequently
 - Easy to Email/Print
 - Cross-reference other important topics and authors
 - Provide references to "hard-copy" journals/magazines in our library

9

Expanded Academic Database

- Index to citations, abstracts, and many "full-text" articles in the humanities and social sciences
- Search by:
 - *Subject*--to search a new research topic
 - *Keyword*-- less precise, but you get more hits

10

Expanded Academic Database

- Search by *Subject*:
 - Narrow your subject search by selecting a **subdivision** term by clicking on NARROW
 - View other related *Subjects*
 - *Remember* you can always further limit your search (additional words, date limit, w/in specific journal)

11

Expanded Academic Database

- Search by **Keyword**: slightly less precise, but you get more retrieval
- Use important/descriptive key words
- Use AND, OR, NOT to maximize your search
- Use an asterisk (*) to search various word endings (teen*)

12

Identify Elements for Citation:

- Author(s)
- Title of the article
- Title of the periodical
- Volume number, issue number, page number
- Publication year
- Web address (URL)
- Date of access

13

Helpful Websites:

- Goleman Library (MLA, APA, & Turabian):
<http://library.deltacollege.edu/IC/index.html>
- APA
 - <http://www.apastyle.org/elecref.html>
- MLA
 - http://www.mla.org/style_faq
- Turabian:
 - <http://www.pace.edu/library/pages/instruct/guides/turabian.htm#Database>
 - <http://juno.concordia.ca/faqs/turabian.html>

14

Library Workshops Available

- To make reservations, sign up in advance at the Reference Desk (2nd floor, Goleman), by phone or email
- Workshops are conducted in Goleman 106
- Suggestions for new workshops are welcomed!

15

Want to learn more? Take a Course

- LIBRY 1 (Library Information Literacy)
 - 1 unit, self-paced, UC/CSU transferable course
 - Pre-requisite: Reading Level II
- LIBRY 2 (Advanced Library Information Literacy)
 - 2 units, self-paced, UC/CSU transferable course
 - Pre-requisite: LIBRY 1
- LIBRY 3 (Information Competency)
 - 3 units, online class, UC and CSU transferable
 - Pre-requisite: Reading Level II
 - One of the General Education Requirement courses from SJDC
 - Required course for graduation at CSU

16

Got Questions? Come see us!

Reference Desk (2nd Floor, Goleman)
