

# Psychiatric Technician Program Prerequisites

---

The Psychiatric Technician program prerequisites are:

Biology 31 (Human Anatomy) **OR** Biology 33 (Anatomy and Physiology)

**Plus the following:**

Psychology 1 - General Psychology

Health Science 19/FCS 19 - Human Development

Health Science 36 - Medical Terminology and Speech

In addition to the above, PT applicants must:

- Be at least 18 years of age
  - Completion of High School (12<sup>th</sup> Grade) –Copy of HS Diploma or Official HS Transcripts with a graduation date
- OR**
- Copy of GED certificate

If a student has a High School diploma from a foreign country, a **Sealed Official Evaluation** must accompany that foreign High School diploma that indicates it is equivalent to a U.S. Twelfth (12th) Grade High School completion.

The agency evaluating the foreign diploma must be accredited by National Association of Credential Evaluation Services (NACES).

- [Foreign Educational Document Service website](#)

**ALL** prerequisite courses **MUST** be completed at the time of applying to the Psychiatric Technician program.
