

2007 Survey of Graduating Students

Upon graduating in May 2007, students were asked to reflect upon their experience at San Joaquin Delta College. Participants responded to a 10-item survey which asked them about the skills and abilities that they have cultivated while at Delta College. Students rated each item on a 5-point scale with 1 indicating the item was not at all reflective of their experience at Delta College, and 5 indicating the item reflected their experience to a great degree.

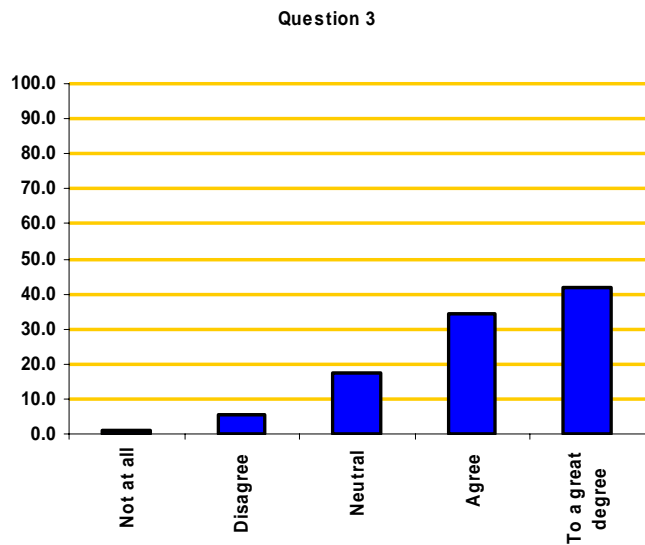

Students were overwhelmingly positive. With a mean (average) response equal to 4 or more, students indicated that they agreed that their experience at Delta College: gave them an opportunity to appreciate the value and importance of history; increased their respect for cultural diversity; helped them achieve a deeper understanding of the ethical choices faced by individuals in contemporary society; prepared them for upper division college work or to get a job in their chosen field; developed their capacity for self-understanding; developed their ability to evaluate information for accuracy and validity; developed their ability to think and communicate clearly and effectively through the use of oral, written and mathematical skills; and, gave them an appreciation for lifelong learning.

As part of this survey, students were asked to identify any instructor, counselor, or staff member who helped, inspired, or encouraged them while they were Delta College students. The results of this question have been compiled into a list of SJDC employees who were recognized by our 2007 graduates for their exceptional ability to reach out to and inspire our student body.

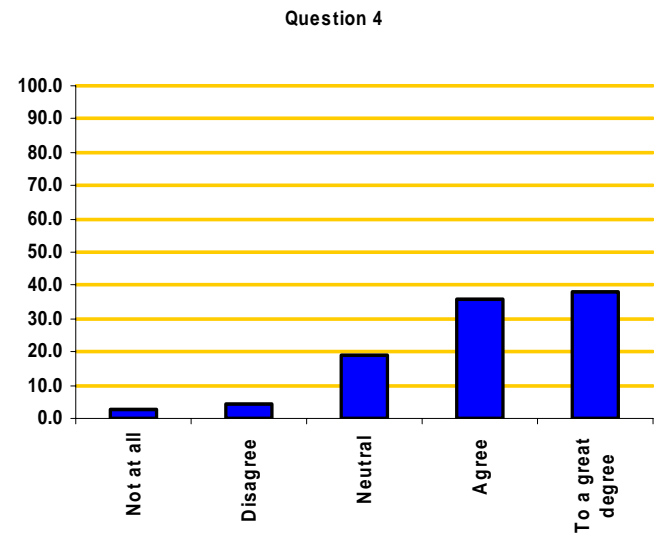

Item	N		Mean (Average)	Median (Half Point)	Mode (Most Frequent Response)
	Valid	Missing			
Gave me an appreciation of the value and importance of history	337	6	4.03	4.00	5
Increased my respect for cultural diversity	341	2	4.10	4.00	5
Helped me to achieve a deeper understanding about the ethical choices that individuals face in contemporary society	339	4	4.12	4.00	5
Increased my ability to critically analyze principals, theories, beliefs, and knowledge	340	3	4.22	4.00	4
Prepared me for upper division college work or to get a job in my chosen field	340	3	4.26	4.00	5
Developed my capacity for self-understanding	340	3	4.26	4.00	5
Developed my ability to evaluate information for accuracy and validity	338	5	4.30	4.00	5
Developed my ability to think and communicate clearly and effectively through the use of oral, written and mathematical skills	338	5	4.30	4.00	5
Gave me an appreciation for lifelong learning	341	2	4.46	5.00	5
