

**PRE-LICENSURE FOR CSU STANISLAUS NURSING PROGRAM  
HECCC GRID  
2005-2006**

*Established Fall 2002*

This grid represents comparable lower division course preparation for admission to the Pre-licensure Nursing at CSU Stanislaus. It is published for informational purposes only. Although every effort has been made to ensure its accuracy, it is not considered an irrevocable contract between HECCC and the student. HECCC reserves the right to change provisions and descriptions at any time while taking precautions that such changes do not adversely affect enrolled students. Students are advised to consult their college counselor for supplementary information

### CAMPUS SPECIFIC NOTES:

**CSU STANISLAUS:** Thirty (30) students will be enrolled in the pre-licensure program each fall. Half of the prerequisite courses must be completed at the time of application to the program, including at least two science courses. Remaining prerequisite courses may be in progress at the time of the nursing application, and one course may be taken in the summer prior to entry. Evidence of completion or work in progress is required for the application. A final grade of “C” or better in any outstanding course is required to enter the program in the fall.

An acceptable Inorganic-Organic Chemistry course sequence may substitute for a Bio Chemistry course. CSU Stanislaus will not require Fundamental Chemistry if Bio Chemistry prerequisite completed prior to admission.

This is an impacted program and supplemental criteria are used for the selection of students. Applicants must have a minimum overall GPA of 2.5, a GPA of 2.5 in the science courses and complete the ATI Tests of Academic Skills. Additional points can be awarded for the following:

- a. Continuing CSU Stanislaus student with last 10 units completed on campus
- b. California residency
- c. Permanent residency in Calaveras, Mariposa, Merced, San Joaquin, Stanislaus, or Tuolumne counties (the CSU Stanislaus service region)
- d. Health care experience (paid or volunteer)
- e. Bilingual

Applicants will be ranked and selected according to overall GPA, science GPA, ATI scores, and any additional points gained from the categories listed above. Alternates will be selected.

Applications to the program will be available in December and the application period for admission to the nursing program is January 15 – February 14, 2003. Applications to the University are accepted during the priority admission application filing period, October 1 through November 30. Students need to be admitted to the university to apply to the nursing program.

**COLUMBIA:** Students may take CHEM 10 Fundamentals of Chemistry at Columbia but must take CHEM 2070 at CSU Stanislaus winter term or CHEM 1A, 1B sequence before entering the pre-licensure nursing program.

**MERCED:** CHEM 04 A General Chemistry has a prerequisite of CHEM 02 A Introductory Chemistry. Completion of CHEM 02 A and 02 B are recommended for the Fundamentals of Chemistry and Organic or Bio Chemistry prerequisites. As an alternative to the Bio Chemistry/Organic Chemistry requirement, students can complete CHEM 01 A at Merced College and enroll in CHEM 2070 at CSU Stanislaus during the winter term.

**MODESTO JUNIOR COLLEGE:** CHEM 112 Organic Chemistry has a prerequisite of CHEM 102 or CHEM 103 General Chemistry 2. Completion of CHEM 142 and 144 or CHEM 143 and 144 are recommended for the Fundamentals of Chemistry and Organic or Bio Chemistry prerequisites. Students who have successfully completed CHEM 101 at Modesto Junior College may fulfill the Bio Chemistry/Organic Chemistry requirement by enrolling in CHEM 2070 at CSU Stanislaus during the winter term.

**SAN JOAQUIN DELTA:** Students who have successfully completed CHEM 1A at San Joaquin Delta College may fulfill the Bio Chemistry/Organic Chemistry (SJDC CHEM 3B) requirement by enrolling in CHEM 2070 at CSU Stanislaus during the winter term or by taking the CHEM 3A, 3B sequence.
