

BACKGROUND CLEARANCE POLICY-

Background checks are commonly completed on health care personnel including students. Our affiliate clinical sites now require background clearance of all students assigned to their facilities prior to placement. If a student cannot obtain background clearance, *it will not be possible to place the student in the clinical area which is a required component of the program and the student will be withdrawn from the program.*

Applicants selected into the program will be required to complete the background clearance at their expense as part of their clinical requirements for admission. In the event a student cannot obtain background clearance, the applicant's space in the program will be forfeited. Potential applicants are strongly encouraged to assess their personal criminal background prior to submitting an application to the program. The affiliate health care facilities will have the final determination as to student placement.

Factors that will definitely affect clearance include:

- Acts of violence
- Sexually violent crimes
- Recent (less than 7 years) arrests and/or conviction

The above is a partial listing. Following is a more complete description of screen scoring:
