

Cisco-VPN Login Instructions

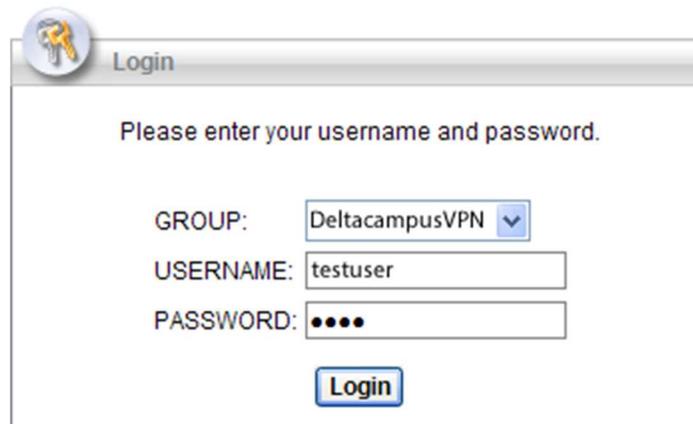

Note: Google Chrome is recommended as the browser of choice for these instructions

Installing the AnyConnect Client

1. Bring up a web browser and go to <https://cisco-vpn.deltacollege.edu>. You should see this page.

2. Click on the Group selection menu and choose DeltacampusVPN. Wait a few seconds as it reloads, then enter in your username and password. Click on the Login button.

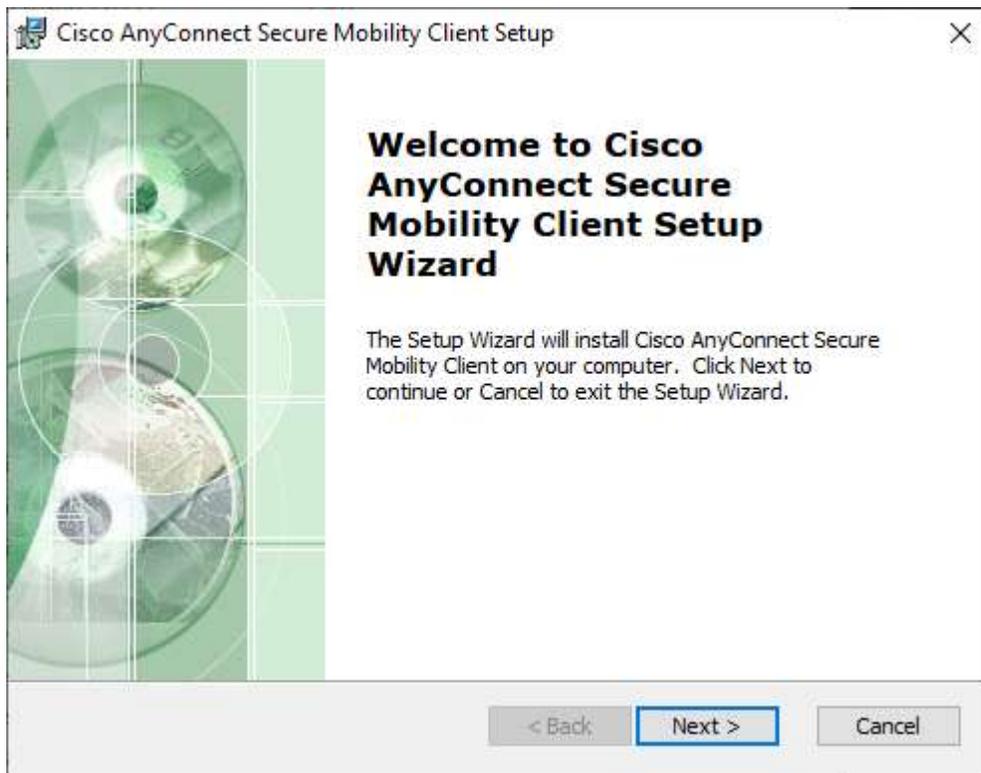

3. After you click Login, the browser will try to automatically install the client, but stop at this point. Click on the [Windows Desktop](#) link to download the client.

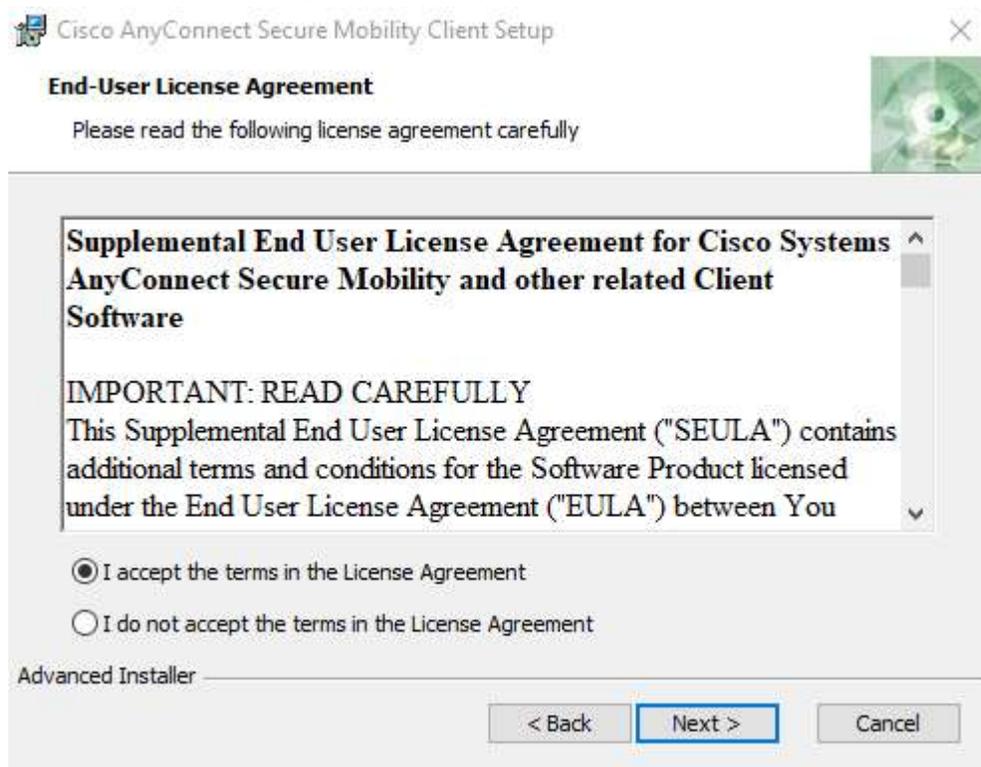

4. You should see this down at the bottom of your browser once the client has downloaded. Click on it to launch the installer. Alternatively, you can find the anyconnect-win-3.1.14018 installer in your download folder.

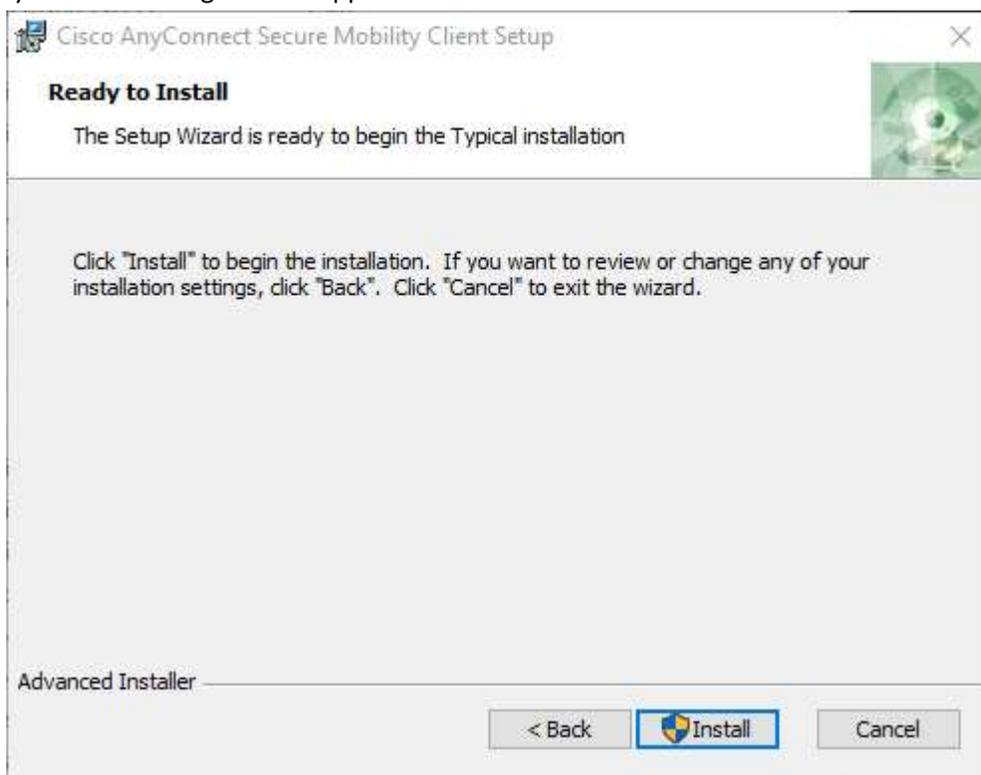

5. After a few moments, the Cisco AnyConnect Secure Mobility Client Setup dialog box will appear. Click Next to continue.

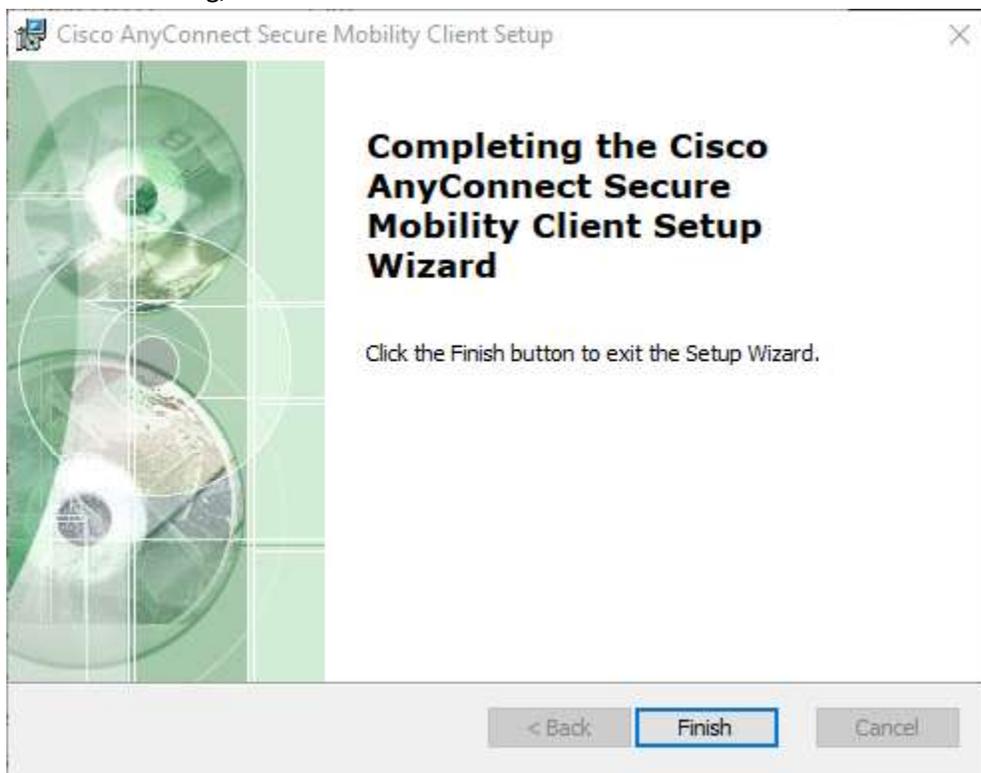

6. Accept the terms in the License Agreement and click Next to continue

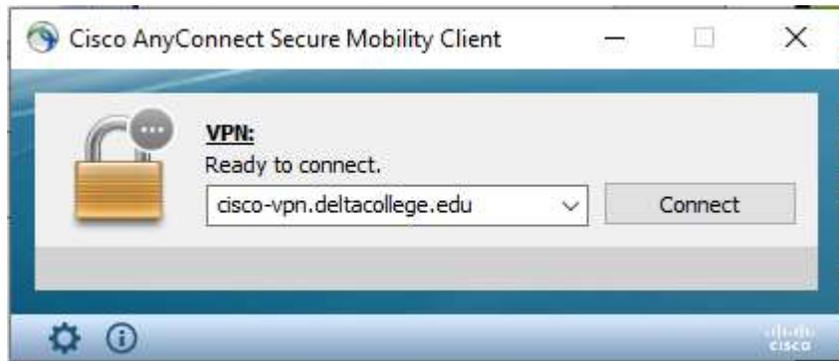

7. The Ready to Install dialog box will appear. Click Install to install the client.

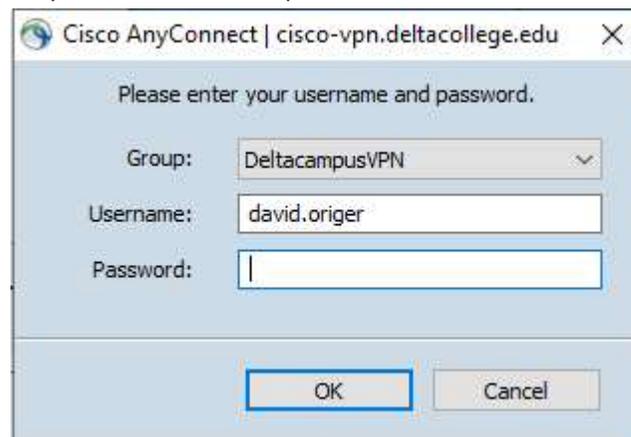

8. Once it's finished installing, click Finish.

- Once the client has finished installing, go to your Start Menu and click on the Cisco AnyConnect Secure Mobility Client. This will launch the client and bring up the connection dialog box. The address bar should show **cisco-vpn.deltacollege.edu**. If it does not, type it in and then click connect.

- Once the connection is made, you will see the authentication dialog box. Make sure the Group says DeltacampusVPN. Type in your username and password, then click OK.

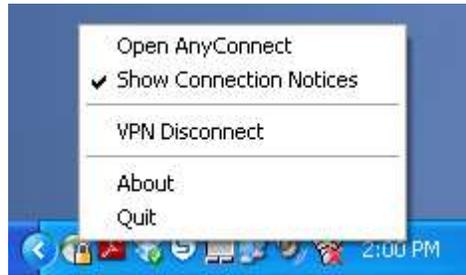

- The connection will be established and you should see this message popup in the lower, right-hand corner. You will also see a small sphere with a padlock in the icon tray.

Exiting the VPN and closing the client

To close the client and exit the VPN, right-click the icon in the icon tray. Select Quit from the popup menu.

Starting the AnyConnect Client after it's been installed

After installing the client, you can simply launch it from the start menu in the future.
