What Guided Pathways Means for Students

The Guided Pathways framework creates a highly structured approach to student success that:

Provides all students with a set of clear course-taking patterns that promotes better enrollment decisions and prepares students for future success.

Integrates support services in ways that make it easier for students to get the help they need during every step of their community college experience.

Create clear curricular pathways to employment and further education.

Help students choose and enter their pathway.

Help students stay on their path.

Ensure that learning is happening with intentional outcomes.

Programs that are fully mapped out and aligned with further education and career advancement while also providing structured or guided exploration for undecided students.

Proactive academic and career advising from the start through completion and/or transfer, with assigned point of contact at each stage.

Early alert systems aligned with interventions and resources to help students stay on the pathway, persist, and progress.

Redesigning and integrating basic skills/developmental education classes to accelerate students to college-level classes.

Structured onboarding process including improved placement tests and co-requisite instruction that provide students with clear, actionable, and usable information they need to get to the right start in college.

Instructional support and co-curricular activities aligned with classroom learning and career interests.

California Guided Pathways

Delta College is **one of 20** California Community Colleges selected to participate

Colleges send teams to six institutes from 2017-2019

Pathways coaches help guide and support the implementation process

CALIFORNIA COMMUNITY COLLEGES CHANCELLOR'S OFFICE

In 2017, California leaders allocated \$150 million from Prop. 98 funds for awards to community colleges to develop Guided Pathway Frameworks to support students.

All 114 California Community Colleges are eligible to receive award funding.

First installment of funding from the CCCCO in February 2018.

- Guided Pathways requires a coordinated cross-departmental and divisional effort from college staff, faculty and leadership to share, engage, and discuss.
- Review resources and promising practices from colleges who have implemented Guided Pathways.
- Participate in committee meetings and implementation workshops.
- Think and talk about the unique planning and resource needs at OUR college and for your specific role and function.
