A J 021  Criminal Justice in Society

Prerequisites: None. Prerequisite Skills: 1. Advisory Reading Level II. Corequisites: None. Limitations on Enrollment: None. Advisories: ENG-001A with a grade of "C" or better. This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principals and approaches. Although justice structure and process is examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies. (UC, CSU)

BIM 081  Records Management and Filing

Prerequisites: None. Corequisites: None. Limitations on Enrollment: None. Advisories: CSA-020 with a grade of "C" or better or concurrent enrollment in CSA 020. This course is designed to build an understanding of the basic principles and procedures for manual and electronic records storage and control. Specific rules compatible with the Association of Records Managers and Administrators (ARMA) guidelines for alphabetic indexing are studied, then applied to alphabetic, geographic, subject, and numeric methods of records storage. Management aspects of records control; evaluation of records storage practices; requisition/charge-out and transfer procedures; and legal and ethical issues in the records management field are studied.

BIOL 002  General Zoology

Prerequisites: BIOL-001 Core Biology with a grade of "C" or better. Prerequisite Skills: None. Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course is a survey of the major animal groups based upon structural and chemical similarities, as well as the symbiotic relationship among different species and their evolution. The course considers comparative anatomy, physiology, and genetic characteristics in the determination of the evolutionary relationships. Zoology covers the evolution of single-cell organisms to more advanced species. Ecology and impact of major phyla on their environment are discussed. This course prepares the students for advanced courses in Zoology and satisfies the elementary zoology requirements for medicine, pharmacy, dentistry, game specialist, teachers of biology, and majors in the biological sciences. Off-campus field trips are required. (UC, CSU)

BIOL 003  General Botany

Prerequisites:  BIOL-001 Core Biology with a grade of "C" or better.  Corequisites:  None.  
Limitations on Enrollment:  None.  Advisories:  None.  This course is a study of the life and 
activities of plants followed by an introduction to plant physiology, plant structure, plant 
genetics, plant ecology, plant evolution, and a general survey of the major plant groups.  A 
Survey of diversity is extended to both the Fungi and the Protista Kingdoms.  Lastly an ecology 
unit is studied that investigates the ecological principles of ecosystems, communities, and of 
populations.  The course is for the pre-professional student in the biological sciences and is 
fundamental for the student planning to specialize in forestry, horticulture, agriculture, 
food processing, pharmacy, and other subjects requiring a scientific knowledge of plant life. 
Field trips are included.  This course meets the CSU general education laboratory science 
requirement and IGETC requirements.  (UC, CSU)

Prerequisites:  None.  Prerequisite Skills:  1. Reading Level II.  Corequisites:  None.  
Limitations on Enrollment:  None.  Advisories:  None.  This course is an introduction to 
biology for non-majors.  Biology includes all aspects of the scientific study of life.  In this 
course, the structure, function, and behavior of organisms are studied at the molecular, 
cellular, organismal, and environmental levels within an evolutionary conceptual framework. 
On and off-campus field work is required.  The course meets the CSU general education 
laboratory science requirement and IGETC requirements.  (UC, CSU)

will introduce the student to processes and knowledge for all of Biology, by comparing and
contrasting humans and other organisms in terms of evolution, the creation and maintenance of
homeostasis, and roles played in ecosystems. All major subjects in Biology will be covered,
including cell and molecular biology; fundamental anatomy and physiology; and evolution and
ecology. The course meets the California State University (CSU) general education laboratory
science requirement and Intersegmental General Education Transfer Curriculum (IGETC)
requirements. (UC, CSU)

BIOL 012  Natural History of California

Prerequisites:  None.  Prerequisite Skills:  1. Reading level II.  Corequisites:  None.
Limitations on Enrollment:  None.  Advisories:  None.  This course is an introduction to the
plants and animals of California with emphasis on the plant communities and wildlife of the
Central Valley, the coast ranges, and the Sierra Nevada. Ecologically oriented, the course
probes ways in which plants and animals are adapted to their environment. Present and
historical human environmental relationships will be investigated as well. A field trip is
required.  (CSU)

Prerequisites: CHEM-003A Introduction to Chemistry with a grade of "C" or better.
Prerequisite Skills: 1. Reading Level II. Corequisites: None. Limitations on Enrollment: None. Advisories: BIOL-001 with a grade of "C" or better. This course is a study of microorganisms with the main emphasis on bacteria and the disease process. Laboratory work includes cultural, morphological, growth requirements and biochemical characteristics of microorganisms. Basic laboratory skills of the microbiologist are emphasized. The course is recommended for the student planning to enroll in the SJDC Nursing Program. The student who plans to transfer to a college or university, which requires a 5 unit course in bacteriology or microbiology, is advised to enroll in BIOL 023. (CSU)

Advisories: BIOL 011, Humans in the Biological World, with a minimum grade of "C"; ENG-079, Preparatory English, with a minimum grade of "C" or Composition Level III; MATH 092, Intermediate Algebra (STEM), with a minimum grade of "C" or MATH 082, Intermediate Algebra, with a minimum grade of "C" or minimum level 5 on the COMPASS Math Placement Test. This course is a study of the structural organization of the human body: gross and microscopic structure of the integumentary, skeletal, muscular, nervous, sensory, endocrine, cardiovascular, lymphatic, respiratory, digestive, excretory, and reproductive systems, from cellular to organ system levels of organization. This course is primarily intended for nursing, allied health, kinesiology, and other health related majors. This course covers structure of the human body at the cell, tissue, organ, and system level. A systems approach is taken with microscopy and gross anatomy of all systems. Emphasis is placed on structure-function relationships. This is a majors level course with designed rigor. The laboratory includes study of microscopic specimens, organ and organism dissection, and models. (UC, CSU, C-ID BIOL 110B).

CDEV 093V Work Experience: Child Development and Education

Prerequisites: None. Corequisites: None. Limitations on Enrollment: Work Experience: The student must enroll in a course in the discipline directly related to the work experience. The student must enroll in a minimum of 7 units including work experience units, during the semester. For summer session, the student must enroll in one related course in addition to work experience. The combined total number of units a student may take in work experience and occupational practice may not exceed a maximum of 16 units. Participation requires submission and approval of work experience program objectives and an employer work experience agreement. Advisories: GUID-030 GUID-031 GUID-032 GUID-033 each with a grade of "C" or better. This course is designed for the student employed or wanting to gain practical experience working in the early childhood education setting. The course objectives are developed by the student in consultation with his or her supervisor. The student is engaged in a specific research project or on-the-job learning activities under the supervision of the work site supervisor and college work experience instructor.

**E TECH 046  Mechanical and Electrical Systems**

Prerequisites: E TECH-012 Computer-Aided Drafting with a grade of "C" or better.
Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course is an introduction to the fundamentals of mechanical and electrical building systems used in the construction industry. These fundamentals are applied in the design and drawing of engineering plans for mechanical and electrical systems required for building construction. (CSU)

EDUC 010  Introduction to Education

Prerequisites: ENG-079 Preparatory English with a grade of "C" or better or Composition Level III. Prerequisite Skills: 1. Reading Level II. Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course introduces students to the concepts and issues related to teaching diverse learners in today's contemporary schools, Kindergarten through grade 12 (K-12). Topics include teaching as a profession and career, historical and philosophical foundations of the American education system, contemporary educational issues, California's content standards and frameworks, and teacher performance standards. Three hours in class is required each week to integrate practical experiences with theory learned in education course. A minimum of 54 hours of field experience in addition to class schedule is required to receive credit for the course. (UC, CSU)

74437 W 6pm-8pm 3.0 HOLT 415 Prescott, K 0
TBA: 1.0 hrs./wk INTERNET Prescott, K

The above section is hybrid, in-person and Internet combined. Course requires an additional 54 hours of field work primarily in grades 4-8.

EDUC 012  Reading Tutoring Techniques

Prerequisites: ENG-079, Preparatory English, with a grade of "C" or better. Corequisites: None. Limitations on Enrollment: None. Advisories: EDUC-010 with a grade of "C" or better. This course introduces the concepts and practice of elementary level tutoring in reading. Students will work with emergent readers in grades kindergarten through third grade, or with English Language Development (ELD) students. A minimum of 36 hours of field experience is required. TB test and fingerprint clearances are required. This course is recommended for students considering a career in teaching. (CSU)

***** Sa 8am-2pm 3.0 BUDD 333 Hurtado, L 0
Must be admitted to Mini Corps Program. Contact Mrs. Hurtado at lhurtado@deltacollege.edu.
Course requires an additional 54 hours of fieldwork primarily in grades K-12.

Course requires an additional 54 hours of field work primarily in grades k-3.
ELEC 030  Fundamentals of Electricity

Prerequisites: None. Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course is designed to present the fundamental principles of electricity, magnetism and alternative energy. The student is introduced to the concepts and applications through lecture and laboratory for both direct (DC) and alternating current (AC). The student develops skills in the measurement, construction, and analysis of electrical circuits. (CSU)

ELECT 011  AC and DC Network Analysis

Prerequisites: None. Corequisites: None. Limitations on Enrollment: None. Advisories: None. The Electronics Technology Program provides students with theoretical background and practical experience in meeting the technical requirements of electronics and electrical technology. The course sequence is designed to meet the skill and training needs of employers and to prepare students for technical employment. This course is designed to present the passive components in electronics from atomic structure through resonance. Laboratory exercises are utilized to familiarize the student with basic electronics test equipment and simple AC and DC (Alternating Current and Direct Current) circuits. (CSU)

ELECT 030D  Advanced Electronic Network Systems

Prerequisites: ELECT-030C Basic Electronic Network Systems with a grade of "C" or better or CCNA Certification. Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course is an advanced overview of IPv4 (Internet Protocol version 4) addressing techniques and Wide Area Network technologies and terminology. The course will cover NAT (Network Address Translation) and the use of private addresses to configure and secure a greater number of users within a network. The course will define the concepts and configuration of PAT (Port Address Translation) and DHCP (Dynamic Host Configuration Protocol) for scalability of IPv4 addresses. This course will cover PPP (Point-to-Point Protocol), Frame Relay concepts and router configuration.
ELECT 034   Network Systems Security

Prerequisites: ELECT-030D Network Hardware Application and ELECT-030E Advanced Electronic Network Systems each with a grade of "C" or better. Prerequisite Skills: None. Corequisites: None. Limitations on Enrollment: None. Advisories: None. This course will teach students to design and implement security solutions that will reduce the risk of revenue loss and hardware vulnerability. The course will be an introduction to network security and overall security processes. There will be particular emphasis on security technologies, products and solutions, firewall and secure router design, installation, configuration and maintenance, and securing the network at layers 2 and 3 of the OSI model (Open Systems Interconnection Model). This course prepares the students for industry professional level certification such as the CCNA Security Certification. (CSU)

SPAN 004  Intermediate Spanish II

Prerequisites: SPAN-003 Intermediate Spanish with a grade of "C" or better. Prerequisite Skills: 1. Advisory Reading Level II. Corequisites: None. Limitations on Enrollment: None. Advisories: ENG-079 with a grade of "C" or better. This course continues to expand upon culture and facilitate language acquisition through listening, speaking, reading and writing. Students will interact with more sophisticated authentic language in context. Content continues to expand in order to express more complex ideas in order to express personal meaning and to apply different strategies and techniques to go beyond casual conversation and express opinions, make suggestions on familiar topics, as well as some abstract issues and plans. Students demonstrate an increased awareness of cultural norms, values, and culturally relevant appropriate customs and events. Accuracy becomes quite high for high frequency structures and vocabulary but more complex discourse is still developing and requires a somewhat sympathetic listener or reader. Students will continue to demonstrate the ability to think critically by analyzing linguistic structures and reflecting on and making cross-cultural comparisons. This course is taught in Spanish.
