MATH 086 Applied Mathematical Concepts for the Associate Degree

Prerequisites: MATH 080 with a grade of "C" or better. Limitations on Enrollment: None. Advisories: None. This course uses the procedural, analytical and critical thinking skills from Elementary Algebra to explore mathematics in a variety of applications. Topics covered include (but are not limited to) consumer mathematics, statistics, unit conversions and geometry. This course satisfies the Language and Rationality Group B requirement in the General Education pattern for the Associate Degrees, but it is not appropriate for students planning to transfer to a four-year college. It will not satisfy the prerequisite for a higher level math course.

MATH 120 Math and Science Tutoring

Prerequisites: None. Prerequisite Skills: None. Corequisites: None. Limitations on Enrollment: the student must be enrolled in a course within the Science and Mathematics Division; or require tutoring in applied mathematics or sciences content within courses; or mathematics and science content within General Education Development course. Advisories: None. This course is designed to provide students with tutoring support in math and science. The course offers tutoring on an individual basis or in small groups. The course goal is to help the student become a self-sufficient, independent learner.

MCOM 002 Writing for the Media

Prerequisites: MCOM-001 Introduction to Mass Communication with a grade of "C" or better.
Prerequisite Skills: None. Corequisites: None. Limitations on Enrollment: None.
Advisories: None. This course is designed to offer the student fundamental instruction in writing for the mass media. The course includes instruction in writing techniques for newspapers, magazines, radio, television, and other news and information media. Also covered is the application of journalistic principles in writing columns, features, and editorials; corporate communications; publicity, public information, advertising and related areas. The treatment of news by both print and broadcast media is analyzed and evaluated. Legal and ethical issues related to writing for the media are also examined. Extensive instruction is offered in standard styles, grammar, copy editing, and proofreading. The course is particularly recommended for English, communications, business and advertising majors, as well as for any field in which the student would benefit from theoretical and practical enhancement of writing skills. Prerequisites: MCOM 001, Introduction to Mass Communication, with a grade of "C" or better.
Prerequisite Skills: None. Corequisites: None. Limitations on Enrollment: None.
Advisories: None. This course is designed to offer the student instruction in fundamental journalistic writing. Emphasis is placed on the personal interview as a vital process in structuring an objective presentation of news and feature stories. Accompanying the various areas of writing instruction is an introduction to the basics of photojournalism for the reporter. As a component of the course, the student prepares news and feature stories for the college newspaper. The role of the reporter and the legal and ethical issues related to reporting are also examined. (CSU, CAN JOUR 2)
