The Guided Pathways framework creates a highly structured approach to student success that:

Provides all students with a set of clear course-taking patterns that promotes better enrollment decisions and prepares students for future success.

Integrates support services in ways that make it easier for students to get the help they need during every step of their community college experience.

Four Pillars of Guided Pathways

Create clear curricular pathways to employment and further education.

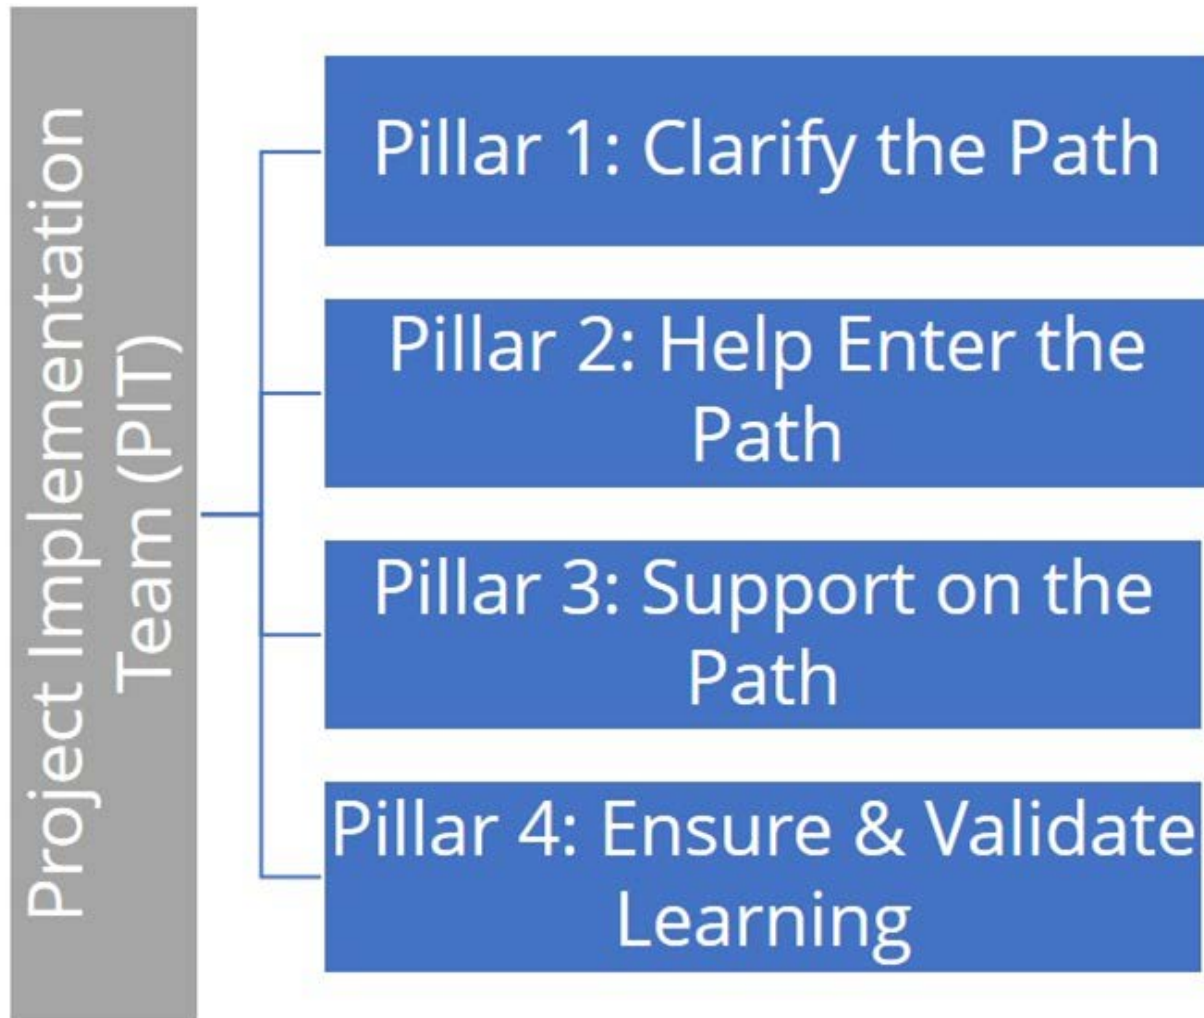

Help students choose and enter their pathway.

Help students stay on their path.

Ensure that learning is happening with intentional outcomes.
