

Residency Reclassification Petition Instructions

California Residency Requirements

Residency classification is determined for each student at the time of admissions and whenever a student has not been in attendance for more than one semester (Title 5 §54010). Under California State Education Code regulations that govern the California Community Colleges, classification as a California resident requires that a person be physically present in this state for two years prior to the beginning of the term for which he/she is applying. American citizens or permanent residents of the USA who have not resided in California for more than the required period immediately preceding the residence determination date will be subject to the non-resident tuition fee as set forth by the college prior to the start of each academic year.

One year of physical presence may be acceptable if a student's documentation shows evidence that they hold an eligible immigration status or are a US citizen, proves physical presence in California and intent to make California the permanent home. (Title 5 § 54045, § 54020, § 54022, 54032)

How to Petition for California Residency

According to Board Policy, a nonresident student must file a Residency Reclassification Petition before the start of the semester for which reclassification is to be effective. *AP 5015 Residence Determination Reference: Education Code Sections 68000; Title 5, Sections 54000*

If a student's present stay in California began less than two years before the beginning of the semester for which he or she wishes to attend, is classified as a non-resident, and would like reconsideration of their classification then he or she is required to submit a Residency Reclassification petition and submit supporting documentation. To establish California residency for tuition purposes, you must file a Residency reclassification petition and must:

1. Have U.S. citizenship or hold legal immigration status that is eligible to gain California residency.
2. Have one year's physical residence in the state of California and show evidence of intent to remain in California. This means a student's physical presence and documents must be dated before the residency determination date of the term he or she wishes to attend (indicated below):
 - ❖ For Spring 2024 Semester documentation must be dated on or before January 11, 2023.
 - ❖ For Summer 2024 Session documentation must be dated on or before May 26, 2023.
 - ❖ For Fall 2024 Semester documentation must be dated on or before August 15, 2023.
3. Show proof that your primary source of financial support is derived from the state of California. For students between the ages of 18-24 years old who are seeking reclassification from nonresident to resident status, they must demonstrate evidence of financial independence from their nonresident parent or legal guardian.

A student must establish his/her own residency. A student's residency cannot be derived from his/her spouse or domestic partner.

MINORS: Students under 19 years of age and unmarried derive California residency from their parents. The minor student must meet the eligibility requirements and parents must provide required documentation demonstrating physical presence in California, intent to make California their permanent residence prior to the start of the term and also that the student is a financial dependent.

Please see the following sections 1-3 for specific requirement details and examples of acceptable types of documentation that should be submitted with the Residency Reclassification petition.

Frequently Asked Questions

I'm still not sure what documentation to submit with my Residency Reclassification petition. Is there a way I can find out before I turn in my petition?

Yes, submit your request for an "unofficial" review of your residency or your questions with the following information to residency@deltacollege.edu:

1. Name
2. Delta ID Number
3. Reason you believe the Non Resident classification is incorrect

You will receive an email response within five (5-10) working days. Although no change to your residency classification will be made based on an "unofficial" review, an "unofficial" review often speeds the reclassification process because you know what documentation to submit when you request a residency reclassification through the formal process.

How do I submit my Residency Reclassification Petition?

Please submit your completed Residency Reclassification Petition and copies of your supporting documentation one of the following ways:

- By Email: Scan your Residency Reclassification Petition and supporting documentation into pdf format (pictures will not be accepted), attach and send by email to residency@deltacollege.edu .

All responses will be sent to your assigned Delta College student email account. You are advised to check your student email account daily for updates after you have submitted your petition.

Remember, it is your responsibility to check and respond to your student email account in a timely manner. A response will not be sent to your personal email account or by phone.

Can my parents or spouse call or come in and discuss my residency with the Admissions & Records office?

Your privacy is automatically protected by The Family Educational Rights and Privacy Act of 1974 (FERPA). The purpose of The Family Educational Rights and Privacy Act of 1974 (FERPA) is to protect the privacy of information concerning individual students by placing certain restrictions on the disclosure of information contained in a student’s academic records. This includes students under the age of 18 years old. So we will not release your student information to other persons without your consent. If you would like to authorize release of your information to specific individuals or agencies (i.e. parents, grandparents, or spouse) you may do so by completing an *Authorization to Release Information* form which is available on the college website and include it with your Residency Reclassification Petition submission.

What if my Residency Reclassification Petition is denied?

If your Residency Reclassification Petition is denied you may appeal the decision within 30 calendar days from receipt of the denial email notification and provide additional documentation.

When do I need to pay my registration fees?

Fees are due at the time of registration. After 60 days a hold will be placed on your record preventing future registration and/or requests for academic records.

*** IMPORTANT*** Once courses begin you are liable for payment of fees for all courses for which you remain enrolled whether or not you attend the course. To avoid fee charges, courses must be dropped before the refund deadline date (See the Registration Calendar online www.deltacollege.edu).
